Kennebec River

Big Waves – Big Whitewater – Big Fun!
Rolling Down Maine’s Most Popular River

Your company was recommended to me by a client of mine. She has rafted in Maine many times with several companies and said you guys were the best. From the moment we booked our trip to the moment we left to head home to New Brunswick, Canada we were astonished with the level of customer service. I have traveled the States on many occasions and can honestly say I have never had such great service before. We were first impressed by the booking staff and their organization and patience with our relentless questions before we even arrived. The restaurant staff were friendly and generous; and the kitchen staff deserve a special mention for the great food! Thanks again everyone! We will be back next year for the Penobscot river rafting and maybe the Dead river too. I will continue to praise you and recommend your company to everyone.

Penobscot River

The Most Challenging
Whitewater in New England

My husband Bob, and I attended our first white water rafting event on the Penobscot last Saturday and had the time of our lives. It truly was an exhilarating experience to remember and one to check off the bucket list. A huge thanks to your Penobscot staff and particularly to our guide, Freddy whose skillful experience contributed to our lasting memories.

Rose H. – Chepachet, RI

The Penobscot is the most technically challenging river in Maine and one of the best in the United States. You will experience more technical rapids, exposed rocks, steeper gradients and awesome whitewater.

The river is set in the shadow of mile high Mt. Katahdin and on the perimeter of Baxter State Park. Eagle, osprey, moose and bear sightings are not uncommon, while the river abounds with salmon and trout.

TRIPS OFFERED ON THE PENOBSCOT:

PENOBSCOT “FULL RIVER TRIP” – Run the more moderate Lower Section in the morning and the more challenging Upper Gorge in the afternoon, this trip runs every rapid on the river and floats by mile high Mt. Katahdin. Minimum age is 13 years.

PENOBSCOT “ULTIMATE” – Run the Upper Gorge two times – this trip focuses on the Class 5 Upper Section and does not run the Lower Section. Minimum group size requirement. Minimum age is 13 years.

PENOBSCOT “TWO DAY TRIP” – Treat yourself to one of our best trips. Raft the Full River Trip on day one and the Ultimate on day two. Each day begins and ends at our Penobscot River base, camping and lodging is available on site or through local establishments. Minimum group size requirement for the “Ultimate”. Minimum age is 13 years.

Dead River

16 Miles of Continuous Whitewater

Our family would like to compliment North Country Rivers on running a great operation. Early in the year we booked a rafting trip and from the very outset you folks did an excellent job of making the trip stress free.

We were very happy with our accommodations and being a person who loves manicured lawns, I could tell that a lot of pride goes into keeping the grounds so neat and tidy. Free mountain bikes surprised us as we are avid bikers.

Our guide exceeded our expectations for fun and thrills for this time of the year. I know we did more backward spins on that river than I have done in a life time thus far! Our grown sons and wives are gung hoe for another family trip next year. What parents could ask for anything better than that?

Jerry, Lynda, Chris, Amy, Greg, Erica – Kingston, NB

The Dead River offers the most continuous whitewater in New England. From Spencer Stream to The Forks, Maine, this is truly one of the great whitewater experiences in the United States. BIG volume whitewater with challenging class 4 rapids.

The first two release dates, May 7th and 14th, are the BIGGEST AND MOST POPULAR OF THE YEAR - 7000 CFS (Cubic Feet Per Second). The remaining releases range between 2400-6000 CFS and offer more technical whitewater with great surfing.

Check out the table for dates and water releases. North Country Rivers is also offering Summer Dead River trips – great for summer family fun! Add the Kennebec or Penobscot Rivers for a Two River – Two Day, or Three River – Three Day trip.

THE MOOSE (ALCES ALCES)

Moose roam in abundance in Maine. They are also BIG animals. An adult moose, averages 1000 pounds and stands 6 feet at its shoulder (the largest wild animal in North America). Moose have keen senses of smell and hearing, but they're also near-sighted. Their front legs are longer than their hind legs, allowing them to jump over fallen trees, slash, and other debris. Moose, like deer, lack a set of upper incisors. This requires them to strip off "browse" and bark. Bulls and cows have different coloration patterns. Bulls have a dark brown or black muzzle, while the cows face is light brown. Cows also have a white patch of fur just beneath their tail.

Only bulls grow antlers. Antler growth begins in March or April and is completed by August or September when the velvet is shed. Antlers are dropped starting in December; young bulls may retain their antlers into early spring. Yearlings develop a spike or fork; adults develop antlers that may weigh up to 60 pounds with wide sweeping palms with many long tines. The bell the flap of skin and long hair that hangs from the throat, is more pronounced in adult bulls than in cows or immature bulls.

WHERE TO SEE MOOSE

Cows (female moose) prefer to keep their calves near water as an escape route. Ponds are used by both sexes to escape from moose flies and other pesky insects. "Moose wallows" form in regularly wet areas on the side of roads where road salt accumulates. Moose visit these areas to drink, and satisfy their salt requirements.

WHEN TO SEE MOOSE

Moose are most active in the early morning and early evening hours. Just before sunset moose will roam in search of saplings or salt. Moose are vegetarians and often seek out the young saplings.

PHOTOGRAPHING MOOSE

If you do see moose, use a zoom or telephoto lens to bring the creature up close. Do not try to walk up to a moose.
